| <b>Total Operating Expenses</b>             | <b>\$</b> | <b>468,157</b> |
| Capital Expenditure                         | \$        | -              |
| <b>Total Expenditure</b>                    | <b>\$</b> | <b>468,157</b> |

#### Reason for underspend

The underspend in FY25 is primarily attributable to a period of program transition and strategic realignment, including the conclusion of key phases of the Birthing on Country work and the need for further community, Board, and partner engagement to inform the next stage of delivery. During the reporting period, planned activities were intentionally deferred to allow for culturally appropriate consultation, co-design discussions, and alignment with partner organisations on the future direction of the program. As a result, expenditure against some budget lines was lower than anticipated. Unspent funds have been carried forward into FY26 to support agreed governance engagement, community visits, and delivery activities in line with the approved program objectives and contract timeframe.
