 - **Funding Program:** National Cancer Program for ACCHOs (Round 1)
 - **Amount Awarded:** \$320,000.00 (plus ongoing FTE funding)
 - **FTE Positions Secured:** 1.0 FTE Health Promotion Officer (HPO), 2.0 FTE Cancer Support Officers (CSO)
 - **Status:** Awarded (Agreement executed May 2025)
 - **Funding Period:** 1 July 2025 to 30 June 2027
 - **Key Contact:** Ms. Melissa Hinson (CEO UHSAC)
-

2. Project Proposal

2.1 Project Title

Utopia Cancer Care Coordination and Screening Mobilisation Project

2.2 Project Summary

UHSAC proposes to establish a dedicated Cancer Outreach and Care Unit in the Utopia homelands. Remote First Nations communities experience low cancer screening rates and delayed diagnosis, leading to poor survival outcomes. By deploying 1.0 FTE Health Promotion Officer to conduct local education and 2.0 FTE Cancer Support Officers to manage treatment coordination and family support, we will bridge the gap between tertiary oncology centers in Alice Springs/Adelaide and remote homelands. The requested \$320,000 will fund targeted communication campaigns and travel support.

2.3 Objectives

1. Increase participation in breast, bowel, and cervical cancer screenings by 40% across Utopia.

- 2. Provide local, culturally safe care coordination for patients undergoing active oncology treatment.
- 3. Conduct 12 monthly community education workshops in local outstations.
- 4. Supply transport assistance for patients traveling to Alice Springs Hospital for oncology.

2.4 Project Deliverables

- Regional cancer screening communication materials translated into Alyawarr and Anmatyerr languages.
- Outreach screening clinic schedules (in partnership with BreastScreen NT).
- Individual care plan template for remote cancer patients.

3. Project Budget (\$320,000 Project Fund)

Budget Item	Description	Cost (AUD)
Travel & Patient Transport	Patient flights, local 4WD fuel, Alice Springs accommodation	\$140,000
Communication Campaigns	Language translation, radio promos, printed posters	\$60,000
Medical Screening Supplies	Diagnostic kits, educational models, clinic disposables	\$40,000
Local Training & Workshops	Community lunches, elder stipends, health promo events	\$50,000
Administration & Support	Dedicated IT software, clinical databases, reporting	\$30,000
Total Project Fund		\$320,000
FTE Salaries	<i>Separately funded directly by NACCHO outside project pool</i>	<i>Refer to Agreement Schedule</i>
