2. Project Proposal

2.1 Project Title

Urapuntja Elder Care Navigation & Trusted Facilitator Program

2.2 Project Summary

The Urapuntja Elder Care program aims to address the significant under-representation of Utopia homelands residents in aged care support. Due to language barriers, distrust of institutional frameworks, and lack of local support, remote Elders face extreme difficulties navigating My Aged Care. UHSAC will employ 1.5 FTE Trusted Indigenous Facilitators (Care Navigators) from the local community to identify vulnerable Elders, conduct home visits, complete assessments, and coordinate Home Care Packages (HCP) so they can remain healthy on Country.

2.3 Objectives

1. Identify and register 50 remote Utopia Elders on the My Aged Care portal.
2. Conduct culturally safe, bilingual home assessments at 16 outstations.

- 3. Coordinate delivery of domestic help, clinical nursing, and nutrition support to approved Elders.
- 4. Deliver training on aged care systems to local community-controlled workers.

2.4 Project Deliverables

- 1.5 FTE trained local Elder Care Facilitators.
- Local register of Utopia Elders, their current My Aged Care status, and care needs.
- Outreach support guidelines for remote aged care assessors visiting the region.

3. Project Budget (Annual Allocation)

Expense Item	Description	Cost (AUD)
Staff Salaries	1.0 FTE Senior Navigator + 0.5 FTE Community Aides	\$120,000
Outreach Travel	Fuel, off-road vehicle maintenance, emergency gear	\$25,000
Local Food & Supplies	Nutritious meals for home-bound Elders during visits	\$15,000
IT & Comms	Rugged tablets for remote registrations, satellite phone	\$12,000
Admin Support	Overhead, office space, payroll processing	\$8,000
Total Annual Budget		\$180,000
